UI/UX Designer & Researcher | MS User Experience, ASU | Open to Summer 2026 Internships

SUMMARY

Detail-oriented UX Designer and Researcher with hands-on experience in user research, wireframing, Figma prototyping, and usability testing across NGO, enterprise, and AI product environments. Skilled at translating user needs into scalable design solutions through cross-functional collaboration and systems thinking. Passionate about problem-solving in complex, regulated domains and designing experiences that are both accessible and impactful.

EXPERIENCE

UI/UX Designer & Researcher | Blue Horse Digital | *Remote* | *Feb 2026 – Present*

- Synthesized product documentation and stakeholder inputs to define system requirements, accelerating Sprint 1 feature scoping for an AI-powered case generation tool.
- Developed user personas grounded in primary research, aligning cross-functional teams around target user needs and informing design system decisions.
- Created system maps and user flow diagrams to model the product ecosystem, identifying friction points and informing information architecture for the MVP.

UX Design Intern | Vikasa NGO | *Araku Valley, India* | *Jan 2024 – Jul 2024*

- Redesigned product branding and packaging using constraint-driven design, boosting adoption across 200+ tribal farmers and 14 product categories.
- Facilitated system mapping workshops with community stakeholders to redesign farmer scheduling workflows, reducing scheduling conflicts by 30%.
- Prototyped an irrigation visualization tool adopted by 4 community leaders, enabling data-driven modeling of sustainable water usage across the cooperative.

UX/UI Design Intern | HCL Technologies | *Remote* | *Jan 2024 – Apr 2024*

- Designed functional Figma prototypes used by 8–12 SMEs to access HCL's E-Cycle platform, translating complex user needs into intuitive interaction flows.
- Conducted 15+ moderated usability tests, applying SUS and SEQ metrics; improved prototype task success rate by 25% through iterative design refinement.
- Redesigned navigation architecture and CTAs, reducing user errors by 25% and streamlining overall user experience through heuristic evaluation.

Design Research Intern | TRD LABx | *Hyderabad, India* | *May 2023 – Jul 2023*

- Conducted contextual field research at 8 tractor service centers to map fertilizer spraying workflows and identify key usability pain points.
- Synthesized insights into 3 validated design opportunities, presented to stakeholders as a product strategy brief.
- Developed and tested a prototype that reduced fertilizer waste by 20% and improved operational efficiency through process redesign.

EDUCATION

M.S. User Experience | Arizona State University | *Tempe, AZ* | *Expected May 2027*

Relevant Coursework: Usability & User Experience, Human Systems Engineering, Product Design & Evaluation, Cross-Media Design, Technical Communication

Project: ASU Shuttle Tracker usability redesign — addressed navigation inefficiencies and accessibility gaps through user research and WCAG-compliant prototyping.

B.Des, Product & Interaction Design (Hons) | Woxsen University | *Hyderabad, India* | *May 2024*

Honors Research: Sex Work in India — A Systems Design Approach (flagship honors project; applied ethnographic research, systems mapping, and design intervention frameworks).

SKILLS

Design & Prototyping: Figma, Adobe XD, Wireframing, Interaction Design, High-Fidelity Prototyping, Design Systems

Research Methods: Usability Testing, User Interviews, Heuristic Evaluation, A/B Testing, Accessibility Audits (WCAG), Affinity Mapping, System Mapping, Survey Analysis (SUS, SEQ, Likert)

Collaboration & Strategy: Cross-Functional Collaboration, Stakeholder Communication, User Personas, Journey Mapping, Product Strategy, Information Architecture

Tools: Miro, Notion, Adobe Illustrator, Photoshop
